Re: TCA StudyGuide for the ACT

Dear Bill:

Bunkie High School strives to instill in our young people a sense of purpose and to teach them to value themselves in such a way as to inspire in them a desire to learn. Affording the students the opportunity to enroll in a course such as the TCA StudyGuide for the ACT has inspired them to learn as the following data indicates.

Louisiana's state average score on the ACT for the 2006-2007 school year was 20.1. Bunkie High School had 33 students complete the TCA Online StudyGuide for the ACT course in 2006-2007 with amazing results. These students had an average ACT composite score of 22.33 as compared to other Bunkie High students who were not enrolled in the course. Their average was 17.8. TCA StudyGuide students who took the ACT for a second time or more increased their composite score by an average of 2.3 points. I credit this to their participation in this program.

Due to the success of the program, enrollment has doubled in the TCA StudyGuide for the ACT course for this school year.

The ease of implementation and the outstanding technical support and customer care make the TCA StudyGuide for the ACT program and Triumph College Admissions a pleasure to work with.

Sincerely,

Luke Welch
ACT Prep Coach/Curriculum Coordinator
