Lorton, VA 22079

Dear Bill:

After testing below the State averages on the SAT several years ago our school enrolled in the TCA Study Guide program. Just two years later we now test above the National Average. We also test the highest in the Northern Tier of Pennsylvania while spending the least per student.

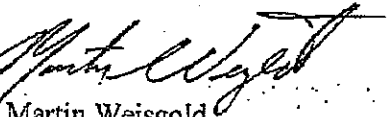

The sixty-four percent of our graduation class that used the Study guide raised their SAT score an average of more than 100 points. The Study Guide has also been an academically motivating tool to increase performance on the PSSA. The students progress in reading, writing, and math are evident on both their SAT's and the PSSA.

Moreover, the Study Guide requires simple monitoring rather than direct teaching enabling either English or math teach to direct the program single-handedly. Parents are impressed with the low cost, ease of attendance, and positive results.

Our experience with the Study Guide for the SAT has been so successful that we have now adopted your Study Guide for the ACT and have become an ACT test site. I look forward to reporting increased ACT scores in the coming year.

On behalf of the faculty, students, and parents of Wyalusing Valley High School, I thank you and your staff for both your outstanding products and superb customer care.

Sincerely,

Martin Weisgold  
Principal
